

**Congress of the United States**  
Washington, DC 20510

April 13, 2020

The Honorable Nancy Pelosi  
Speaker  
U.S. House of Representatives  
Washington, DC 20515

The Honorable Kevin McCarthy  
Minority Leader  
U.S. House of Representatives  
Washington, DC 20515

Dear Speaker Pelosi and Leader McCarthy:

As you negotiate further legislation in response to the COVID-19 pandemic, we renew our calls to include measures to support our service members, their families, and military retirees. By temporarily eliminating the copay for mail order prescriptions through TRICARE, beneficiaries can continue to access their prescription medications at no cost out of pocket while practicing social distancing and protecting mission critical personnel.

Section 702 of the Fiscal Year 2018 National Defense Authorization Act adjusted pharmacy copayments for 2018 through 2027, when the Secretary of Defense will be authorized to set and adjust cost-sharing amounts. For 2020, the copay is \$10 for a 90-day supply of a generic drug and \$29 for a 90-day supply of a brand name drug. However, if a beneficiary picks up their prescription drugs from a Military Treatment Facility (MTF), they do not need to pay anything out of pocket.

While the Centers for Disease Control and Prevention (CDC) recommends staying home and practicing social distancing, TRICARE should similarly incentivize people to follow these guidelines. An easy way to keep people in their homes is to temporarily eliminate the copay for mail order drugs, making the cost the same no matter how the beneficiary receives their medication. Service members, retirees, and their families would no longer need to choose between staying safe and accessing prescription drugs without a copay.

In addition to helping service members, retirees, and their families make safe choices in accordance with CDC guidelines, this decision would help beneficiaries who are no longer able to access a MTF. Some installation commanders have suspended or limited installation access for retirees and survivors to protect mission critical personnel from infection. Many of these beneficiaries can no longer access the MTF pharmacies and will have to transfer their prescriptions to mail order or retail pharmacies. These impacted families should not be burdened with unexpected costs related to mail order pharmacy copays.

In any upcoming coronavirus relief package, I urge you to consider this change to help TRICARE beneficiaries access their medications without incurring extra cost or endangering

their health. I appreciate your attention to this matter. Thank you for your service and leadership during this national crisis.

Sincerely,

Elaine G. Luria
